

Индивидуальный проект. Этап 1

Бешкуров Тимофей - студент группы НФИбд-01-21
27.04.2022

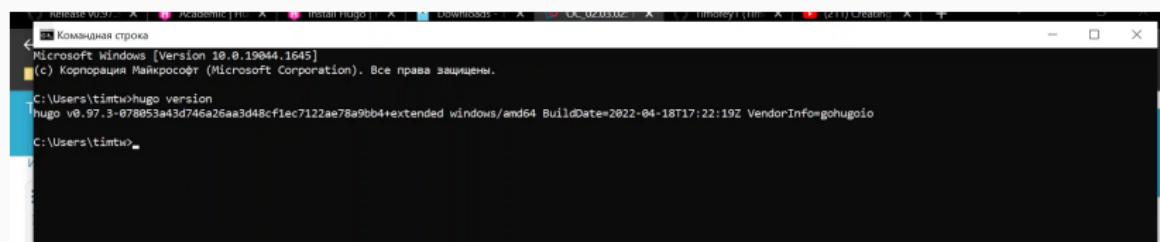

Размещение шаблона hugo на github pages

Цель работы

- Разместить шаблон hugo на github pages

Выполнение лабораторной работы

Установили hugo и добавили его в PATH для удобства вызова из cmd

```
Командная строка

Загружаем это на сервер

The screenshot shows a browser window with multiple tabs open at the top, including "Release v0.1", "Academic", "Install Hugo", "Downloads", "OC_02.03.0", "Timofey1/i", "Timofey1/i", "YouTube (211) Create", and others. The main content area displays a GitHub repository for "Timofey1 / timofey1.github.io". The repository is public and contains 2 commits. The code tab is selected, showing a file tree with folders like "admin", "authors/admin", "categories", "category", "css", "en/js", and "event". The "About" section indicates no description, website, or topics are provided. The "Releases" section shows no releases published and a link to "Create a new release". A small profile picture of a person is visible on the right. The bottom of the screen shows the Windows taskbar with various pinned icons.

Заходим на наш сайт

The screenshot shows a browser window with multiple tabs open at the top, including 'Release', 'Academ...', 'Install Hi...', 'Download', 'OC_02.0', 'Timofey...', 'Pages', 'Academ...', and 'YouTube'. Below the tabs, the address bar displays 'timofey1.github.io'. The main content area of the browser shows a website for 'Academic' featuring a large circular profile picture of a person, the name 'Nelson Bighetti', and a bio about his research interests in distributed robotics, mobile computing, and programmable matter. It also includes a placeholder text section, a download link for a resume, and sections for interests and education. The bottom of the browser window shows the Windows taskbar with various pinned icons.

Biography

Nelson Bighetti is a professor of artificial intelligence at the Stanford AI Lab. His research interests include distributed robotics, mobile computing and programmable matter. He leads the Robotic Neurobiology group, which develops self-reconfiguring robots, systems of self-organizing robots, and mobile sensor networks.
